REMARKS

Claims 10-11, 15, 25-26, 30-58, 62, and 66-82 are now pending in the application. Claims 62 and 66 have been amended merely to correct an informality that has only now been discovered in the claims. In particular claim 62 first defines "at least one summer", but then later refers to this element as "the combiner." Similarly, claim 66 first defines "performing at least one weighted summation," but then later refers to this as "the combining step." Therefore, these claims have been amended to cure the noted inconsistencies. No new matter has been added.

The application is believed to be in condition for allowance. Prompt notice of same is respectfully requested.

Respectfully submitted,
Potomac Patent Group PLLC
